

## *GPMLS: Distinguished lecture series*

**Hildur Helgadóttir, MD, PhD**

**Medical Oncologist, Karolinska University Hospital in Stockholm**

### **Skin cancers and research related to increasing incidence, genetic factors and treatment with immunotherapy and targeted therapy**

Hildur graduated in 2002 as a medical doctor from the University of Iceland. After internship she moved, in 2003 to Boston, to pursue research at the Dana Farber Cancer Institute. In 2012, she completed her specialist training as a medical oncologist, at the Karolinska University Hospital in Stockholm, where she has worked as a clinician and researcher since 2006. In 2015, she defended her doctoral thesis "Cancer risks and Prognosis in Familial Melanoma Kindreds". Hildur is chief physician at Karolinska in the field of skin cancer oncology and genetics. The research she conducts is translational as she oversees a number of both clinical and preclinical studies.

**Monday, May 17<sup>th</sup> 12:00-13.00 o'clock on Zoom**
